BUNBURY ORTHOPAEDIC & SPORTS SURGERY

Dr Christopher Wylde

New Local Orthopaedic Surgeon – Hand, Wrist, Elbow & Shoulder

I am writing to introduce myself ahead of commencing practice as an Orthopaedic Surgeon in the SW in February 2027.

Having previously locumed in the region, my family and I look forward to returning to settle permanently. I am currently completing subspecialty training in the UK, including fellowships in Hand and Wrist Surgery (Liverpool) and Complex Shoulder and Elbow Surgery (Wrightington), with extensive training in wrist and thumb-base arthroplasty. My focus will be delivering a dedicated hand and wrist service alongside comprehensive shoulder and elbow care.

Areas of Interest:

- **Hand & Wrist:** Acute trauma, wrist arthritis/arthroplasty, and thumb-base arthritis/arthroplasty
- **Shoulder & Elbow:** Arthroplasty, sports injuries, and complex reconstruction
- **General Upper Limb:** Comprehensive diagnostic assessment and surgical management

I will practice in both the public and private sectors, with private rooms at Bunbury Orthopaedic and Sports Surgery (BOSS).

Elective referrals can be sent directly to BOSS from December 2026 for triage and scheduling ahead of my clinical commencement in February. My mobile (**0410 805 403**) will be active from February 2027 for direct clinical inquiries, triage, and urgent case discussions. For routine referrals please email to admin@bunburyortho.com

I value close collaboration with primary care and look forward to working with you to deliver accessible upper-limb care across the South West.

Kind regards,

Dr Christopher Wylde
